

A photograph of a modern, multi-story building interior. The space is characterized by a grid of dark steel beams and large glass panels. In the foreground, two curved glass railings frame the view. The floor is made of dark, polished stone tiles. In the center, a red rectangular box contains the text 'nesite' in white, lowercase letters. Below this box, the text 'raising your projects' is written in a smaller, white, lowercase font. At the bottom center, the website 'nesite.com' is displayed in white, lowercase letters. The background shows a long, brightly lit corridor with a series of industrial-style pendant lights hanging from the ceiling.

COMPANY

Nesite is the raised floor brand in the market since 50 years well known for the high quality and the wide range of products.

Companies:

- » Transpack Group Service Spa (Padova and Piove di Sacco)
- » Floor System Company (UAE)

INTERIOR DIVISION

With the INTERIOR Division Nesite can offer, in addition to Nesite raised floor, a fit-out service for offices, commercial and residential projects.

In order to strengthening the INTERIOR Division, Transpack Group recently acquired the brand Simone Piva, specialized in the realization of high-quality tailor made furnishing.
